

ESPM 5031

Graduate Student Project

GNSS equipment comparison

We have 9 different types of GPS equipment with various different functions and accuracies.

- Decide on what to compare; i.e., functions and/or accuracies
- Design process and conduct testing
- Report results (paper or poster)

Rules:

Individual or work in groups of 2 or more.

Can start anytime but needs to be done by the end of semester

40 points (10% of grade)
