

Field Validation

ESPM 4295 Sewer Grates and Canopy

ESPM 5295 Canopy and Buildings

Maps and GeoDatabase showing your work due next Monday (10/16/2017)
(ESPM 5295:one map of each verified layer labeled with verification status)
(ESPM 4295: one map of both verified layers and a separate map of buildings, with image background, study boundary and usual map elements.)

Field Verification Process

Make map with enough detail to verify

Transfer to Nexus 7

Set up (or use provide) attributes

Verify data in Field (as verification points)

Transfer data back to GeoDatabase

Integrate the field information into your base layers
